

A collection of luxury items arranged on a dark, textured surface. In the center is a red leather agenda with white stitching and a matching leather strap. To the left is a gold pen with a red band. To the right is a small, ornate perfume bottle with a gold cap and a textured sphere. In the top left corner is a large, ornate gold base. In the top right corner is a small, ornate gold object. The year '2027' is written in large white letters at the top.

Protejarea

Procedurile și procesele interne, selectarea materiilor prime și a furnizorilor sunt reglementate conform certificărilor U.E.

Această agendă a fost produsă după riguroase procese de producție, fără elemente chimice și produse poluante.

Hârtia este obținută din prelucrarea celulozei fără acid. Fabricile de hârtie selecționate de către noi folosesc energie provenită din combustia de reziduri din lemn nefolosit sau deșeuri din procesul de producție.

Produsele noastre sunt produse integral în Europa, după articolele de lucru fundamentate de Comisia Europeană, printre care și interzicerea forței de muncă infantile.

Furnizorii noștri de materie primă sunt controlați sau certificați și respectă directivele UE.

Procedures and internal processes, selection of raw materials and suppliers UE compliant.

Our diaries are produced with rigorous production processes, without chemical elements and polluting products.

The paper is obtained from acid-free cellulose processing. The paper factories selected by us use energy from the combustion of unused wood residues or waste from the production process.

Our products are fully manufactured in Europe, according to the articles of work substantiated by the European Commission, including the prohibition of child labor. Our raw material suppliers are controlled or certified and comply with EU directives.

Ecoline GROWBOOK

Crește-ți propriul brad cu Growbook și redă pământului ceea ce i-a fost luat

Instrucțiuni de plantare

1. Pune semințele într-un recipient cu apă caldă timp de 24 de ore. Plantează-le apoi într-un ghiveci cu pământ umed amestecat cu nisip (propoție 3:1)
2. Presară nisip deasupra și stropește cu apă
3. Așează ghiveciul la loc umbros. Când semințele încep să încolțească (după 10-20 de zile), oferă-le acces la lumina zilei și cantitate moderată de apă, evitând prea mult expunerea solară.
4. După aproximativ 2 ani de creștere în ghiveci plantați răsadul în pământ, de preferat toamna (în conformitate cu reglementările locale de plantare).
